

Workshop web-site

- Web-site is found at www.space.dtu.dk/integral08
- System is powered by Indico (INtegrated Digital CONFERENCE) conference software developed at CERN under public license
- Server is run by our new host university, Technical University of Denmark, DTU
 - DTU is providing system support
 - DTU is providing the interface to online credit card payment
- At DTU Space the system is managed by G. Villa (system support), S. Brandt (content), and N.J. Westergaard

INDICO features

- Abstract management (on-line comments and recommendations by selected “track managers”)
 - SAC=IUG, please register as users and you will become “track managers” when the abstract deadline expires on June 20
- Registration management (including e-payment, and list of registrants on web page)
- Session schedule management
- Automatic Book-of-Abstracts

Calendar of events

- Reservation of most pre-booked hotel rooms: new 27 June 2008
- Abstract deadline: 20 June 2008
 - (system allows for late abstract submission for selected users)
- Program and abstracts on the WWW: 25 July 2008
- Registration and payment deadline: 01 August 2008 (later registration possible at a higher fee)
- WORKSHOP: 08-11 September 2008
- Papers due: 31 October 2008
- Proceedings publication: February 2009
 - Late papers may trickle in until we decide to close the door

7th INTEGRAL Workshop
An INTEGRAL View of Compact Objects
 DTU Space National Space Institute DTU Technical University of Denmark
8 - 11 September 2008 Copenhagen

Proceedings

- Proceedings will be published electronically in Proceedings of Science
- Referee-light by SAC (??) (=you!)
- Page limits are liberal, but a policy should be developed
- On-line access may open when a critical mass of papers are ready
- On-line access is free to all

PoS PROCEEDINGS OF SCIENCE

by SISA

7th INTEGRAL Workshop
An INTEGRAL View of Compact Objects
 DTU Space National Space Institute DTU Technical University of Denmark
8 - 11 September 2008 Copenhagen

Invited talks

- "*Nucleosynthesis and gamma-ray lines*", **Mark Leising**, Clemson University, USA.
- "*The peak region of the extragalactic background radiation*", **Günther Hasinger**, MPE Garching, Germany
- "*Galactic diffuse emission and ridge sources*", **M. Revnitsev**, IKI, Moscow, Russia
- "*The emerging TeV field*", **Marc Ribo**, University of Barcelona, Spain
- "*AGILE and GLAST, new opportunities for GeV astronomy*", **Marco Tavani**, INAF, Rome, Italy
- "*Cosmic ray acceleration in space*", **Andrei Bykov**, Ioffe Institute, St. Peterburg, Russia
- "*Gamma-ray bursts - where are we going?*", **Jens Hjorth**, University of Copenhagen, Denmark
- "*Positron annihilation in the Galaxy*", (Speaker to be confirmed)

Social programs

- Reception at the conference site on Monday
- Boat trip (pilgrimage) on Tuesday afternoon to Tycho's observatory on the island of Hven
 - Now in Sweden (so yet another non-Euro currency)
- Wednesday night conference dinner at the Langelinie Pavillion, (close to the Little Mermaid)
