

INTEGRAL Archive Statistics

P. Kretschmar – INTEGRAL Mission Manager
INTEGRAL User Group Meeting
ESTEC – 18 January 2012

➤ **IUG Recommendation #30 (Meeting #10)**

All Integral archives shall provide the following data on archive usage:

- downloaded volume (external),
 - number of download requests,
 - number of unique accesses (IP addresses), leading to data download.
- Download requests accounting dropped at IUG Meeting #11 as too difficult to constrain, e.g., due to downloads by VO services.
- Data from other archives regularly requested by ISOC Archive Scientist (M. Cadolle Bel), but updated data not always provided timely.

RECENT STATISTICS ON ARCHIVE USAGE

	ISDC		ISDA		HEASARC	
	Tb	Dist. IPs	Tb	Users	Tb	Dist. IPs
May 2011	9.7	217	0.07	5	0.363	?
Jun 2011	6.4	157	0.003	4	0.181	?
Jul 2011	7.7	144	0.008	2	?	?
Aug 2011	2.7	146	0.011	5	?	?
Sep 2011	3.3	186	0.001	7	?	?
Oct 2011	19.4	573	0.001	6	?	?
Nov 2011	1.7	319	0.001	5	?	?
Dec 2011	2.3	116	0.001	3	?	?

➤ RSDC Archive:

- download/usage rate:
~500GB/month
- total visits:
~100/month
- unique visitors:
~20/month
